Re: Millington, New Jersey  
Superfund RI/FS

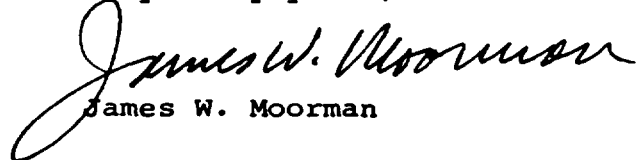

Dear Bob:

The purpose of this letter is to bring you up to date on the status of National Gypsum Company's progress in selecting a contractor for the Millington, New Jersey RI/FS.

As we have discussed, National Gypsum solicited proposals from five firms: IT Corporation, Wehran Engineering, Fred C. Hart Associates, Dames & Moore, and Woodward Clyde Consultants. All five firms submitted proposals which were then reviewed by National Gypsum. At a meeting today in Charlotte, North Carolina, National Gypsum eliminated two of those firms from further consideration (Dames & Moore and Woodward Clyde) and invited the remaining three firms to make presentations to it concerning their proposals on September 6 and 7, 1984.

Subsequent to the meetings of the sixth and seventh, I will be in touch with you about the next step in the process.

Very truly yours,

  
James W. Moorman
